

Agrilevante 2011.  
All the leading players present

Agrilevante is the place where the manufacturers of machines for agriculture, livestock raising and the agri-industry, business people, contractors, distribution networks, associations in the category, institutional representatives, workers and entrepreneurs in agriculture from all countries can meet and together plan a future of development and well-being. With a wealth of technical content and learning initiatives, Agrilevante is a review essential for the growth of the agricultural economy and commercial exchanges throughout the Mediterranean region.

## Business and internationalism

The Agrilevante event, set for October 13 to 16 in Bari, is now an international point of reference for businesspeople throughout the Mediterranean region, from the European and southwestern Balkans to the Middle East. Agrilevante showed significant growth in 2009 in taking over an area of some 40,000 m<sup>2</sup> for more than 200 exhibiting companies.

The number of visitors rose by more than 30%, to 33,000 businesspeople, plus 12 official foreign delegations. The 2011 edition promises even better results, thanks in part to the upgrading of the trade fair center.

### Olive Oil production chain

- ◆ Greenhouses, olive grove specialists, pruning
- ◆ Machinery and products for managing olive groves
- ◆ Machinery for harvesting and mulching pruning residues
- ◆ Mechanized harvesting, collection nets, plastic crates
- ◆ Olive oil extraction lines
- ◆ Machinery for processing olives: leaf and branch removers, washers, crushers, stoners, kneaders, decanters, separators, transport of solids, pumps and valves
- ◆ Press plants for short production chain
- ◆ Inox steel silos and containers, sansa silos, bottlers

### Vineyard and wine production chain

- ◆ Machinery and products for vineyard management
- ◆ Equipment for grape harvesting and crushing
- ◆ Machinery and products for winemaking
- ◆ Equipment for cellars, tanks, casks and barriques
- ◆ Instruments for analyses and products for oenology laboratory
- ◆ Oenology products and aids
- ◆ Bottling and machines and materials for packaging

### Livestock raising production chain

- ◆ Machinery for processing and harvesting forage
- ◆ Machinery and equipment for breeders
- ◆ Milking machines
- ◆ Machinery and plant for processing meat and dairy products

### Cereals production chain

- ◆ Tilling machinery
- ◆ Seeding machines
- ◆ Weeders
- ◆ Plant treatment machines
- ◆ Harvesters
- ◆ Machinery and plant for cleaning, storing and milling
- ◆ Plant for making bread

### Fruit and vegetable production chain

- ◆ Tilling and transplanting machines
- ◆ Irrigation machinery and equipment
- ◆ Crop protection machines
- ◆ Harvesters
- ◆ Refrigeration plant and systems for processing fruit and vegetable products
- ◆ Machinery and plant for fourth range products

### Non-food energy crop production chains

- ◆ Machines for mulching, collection and transport of pruning residues
- ◆ Plant for drying, shredding, cubing
- ◆ Special biomass-fired furnaces
- ◆ Photovoltaic panels and energy distribution systems for farms and agri-industries
- ◆ Wind turbines
- ◆ Production chain technologies for non-food energy crops
