GS-I LINE

IDEAL FOR:

- ✓ **HYDROSEEDING**
- ✓ **TANK
CAPACITY
500 AND 1000L**

WWW.MMSPRAY.IT

SKID MOUNTED HYDROSEEDERS GS-I LINE

DESCRIPTION

The **hydroseeding system** is an easy, fast and effective application of seeding, which uses water as a distribution system.

The M.M. hydroseeders are available with a **skid frame** that can be easily placed on truck beds or carts thanks to the sleds for the forks and lifting hooks as standard.

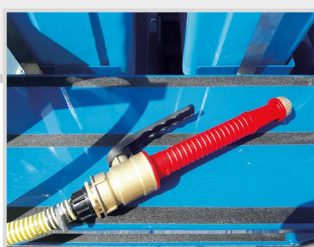

Available with **polyethylene tanks of 500 and 1000L** capacity that thanks to a **powerful Honda petrol engine** and a powerful **self-priming pump** can be used with efficiency and precision during treatment.

Thanks to its **reduced size**, it is a compact, light and easy to use equipment.

Ideal for seeding and mulching, for landscapers and public works companies.

MOTORPUMP

LANCE

LIFT

FILLING HOPPER

Technical data:

MODEL	 Engine	 Pump	 Dimensions (cm)	 Dry weight
500 L	Honda GX 160 (pull starter)	B2KQ-A/ST W 2"	160x135x130	210 kg
1000 L	Honda GX 390 (pull starter)	B3XR-A/ST W 3"	220x135x155	344 kg
